

HOST A TERRARIUM BAR PARTY!

A fun, unique event that will attract customers of all ages!

Here's what you need:

- Terrarium Containers- in a variety of shapes and sizes.
- Terrarium Media- all about layers! our Hydrostone™, Soil and Moss create an ideal growing environment.
- Terrarium Tools- our long handled tool kits make arranging a breeze.
- Plants- a variety of plants and succulents.
- Plant Misters- for use with open terrariums.
- Extras- finishing accents such as gemstones, unique rocks, or even toy animals for a quirky and personalized touch!

TERRARIUM CARE:

OPEN CONTAINERS

WE LOVE: the Artisan, Mixed Materials & Hanging Terrariums

- *Ideal plants: succulents, aloe, hens and chicks, cacti, and air plants.*
- *Water thoroughly when soil dries out.*
- *Use dried materials in open systems, such as sticks, pinecones, preserved mosses and lichens.*

CLOSED CONTAINERS

WE LOVE: Glass Cloches and the Milk Jug container with Lid

- *Ideal plants: tropicals, baby ferns, aechmea, neoregelia, and cryptanthus.*
- *Do not add water at time of planting. A closed system creates its own ecosystem*

PLANT CARE TIPS & TRICKS:

Tillandsia / Air Plants

- *Best in open containers.*
- *Prefer bright light (direct or indirect).*
- *Water by misting frequently OR immerse in water when especially dry.*
- *Temporarily remove air plants from terrarium to water.*

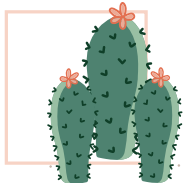

Succulents

- *Best in open containers.*
- *Prefer bright light (direct or indirect).*
- *Water thoroughly when soil dries out completely.*

Tropical Plants

- *Best in closed containers.*
- *Prefer medium to bright light (indirect).*
- *Water thoroughly when soil is dry (but not dried out).*
- *Make sure to water thoroughly, but do not oversaturate.*

Cacti

- *Best in open containers.*
- *Prefer bright, direct light.*
- *Water thoroughly when soil has been dry for a period of time.*
